* KEY TO "OPTIONS" ABBREVIATIONS: Htd = Heated; Rmt = Remote Control Adjustable Glass; Ltd = Lighted

** TO DETERMINE 1992–2002 MODEL YEAR ECONOLINE PAIR NUMBERS (for cross reference to the newer model pair numbers), look at the side numbers shown, choose the LOWER of the two numbers then subtract one from that lower number—this is the pair number. For example, the side part numbers for black Model 2020s with deluxe heads and heated/remote/lighted options for 102" wide 1992–2002 Econolines are 714478 and 714477; the pair number for these vehicles would have been 714476 [714477 (lower of the two numbers) MINUS 1 = 714476].

NOTE: All motorized mirror PAIRS include switches and wire harnesses. *These items are NOT included when motorized mirrors are sold as sides.*

Model 2020 Mirrors

The only original equipment appearance mirror system that provides a stable and superior view around 96" and 102" wide vehicle bodies and large trailers.

Custom designed to fit specific vehicle chassis.

Mirrors install easily and securely in factory mounting holes—no interference with paint schemes or door logos, easy-to-maintain and corrosion-free mirror mount.

Available with a variety of options to improve visibility, safety and driver convenience.

Velvac Incorporated • 2405 South Calhoun Road • New Berlin, Wisconsin 53151-2709 • www.velvac.com
Phone 262.786.0700 or 800.783.8871 • Fax 262.786.4101 • sales@velvac.com

Available only from **VELVAC**

Straight Vans, High Cube Vans, Class C Motor Home Chassis, Towing Vehicles, Pickup Truck Bodies, Ambulances, SUVs...

Applications are Endless

Provides an exceptional view around wide bodied vehicles or trailers by extending out past the vehicle's widest point allowing for optimum usage of mirror glass area.

(Pictured — Ford Super Duty with deluxe mirror head)

SEE BACK COVER FOR ALL AVAILABLE PART NUMBERS.

All mirrors available with a textured black finish—some models also offered in white. (standard mirror head pictured here)

Model 2020 mirrors feature an original equipment appearance and **unique pivot design** which allows the mirror head and arm to rotate safely 80° forward or rearward if impacted to prevent mirror/door damage and allow for maneuvering through tight spaces. This pivot also provides for an easy-to-locate and securely maintained preset driving position. These stylish mirrors **replace original equipment mirrors**, installing easily and securely in existing factory mounting pockets using factory mounting holes. There is **no piercing of door sheet metal** or additional mounting brackets needed inside door skin, preserving factory finish and factory corrosion warranty while maintaining a “clean” look.

Other features and options combine with those above to create a superior mirror system designed to enhance driving safety and enjoyment:

- Powder-coated die cast aluminum base and arm assembly with injection molded ABS mirror head for exceptional durability
- Several arm lengths available for optimal mirror head positioning on 86", 96" and 102" wide vehicles and other specified body widths
- Standard mirror head features 62 square inches of flat glass plus a unique wedge-shaped corner convex for excellent rear and blind spot visibility
- Deluxe mirror head includes independently adjustable flat and convex glass for a superior view of the passing lanes and areas alongside the vehicle (62 square inches of flat glass and 30 square inches of full width convex glass)
- Mirrors available with manually adjustable glass or in heated/remote or heated/remote/turn signal option packages:
 - Heated glass quickly dissipates fog and ice
 - Remote control option allows mirror glass to be conveniently positioned from inside the vehicle
 - Built-in turn signal light on mirror arm ensures added safety when passing and cornering
 - Signal Mirror® option (available only on deluxe mirror head) helps minimize conflict during lane changes

- Motorized mirror pairs include all necessary wiring and a stylized switch plate that quickly mounts within easy reach of the driver's position

Call Velvac at 800/783-8871 for more information about the mirrors that have been called “the most widely used, highest quality, best value wide-body sail mount mirrors on the market today”—ask for the Model 2020 by name!

Foldaway mirrors return to preset driving position without readjustment or need for tools.
