

# THE 2020 SS MIRROR SYSTEM

## THE NEW BENCHMARK FOR SHUTTLE BUS MIRRORS

A combination of styling, quality and performance make the Velvac 2020 SS Series mirror the new benchmark for Shuttle Bus mirror systems. The fully integrated arm, base and mirror head not only look great, but work together as a system to reduce vibration, and provide large, clear views of blind spots and passing lanes around the vehicle.

## PEDESTRIAN SAFETY IS OUR #1 PRIORITY

### Expanded Field of View

- Superior vision and blind spot coverage relative to typical OE mirrors
- Safer lane change maneuvers
- Observe late arriving passengers in loading zones
- Reduce side crashes

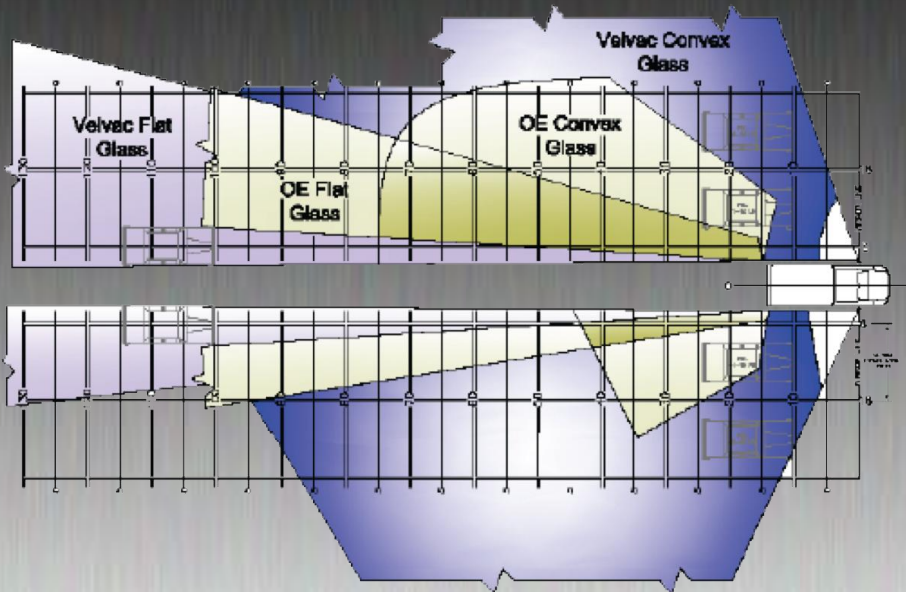

### OE Style with OE Plus Function

- Seamlessly integrates into door sail area and fender for a clean, upscale look
- Die cast aluminum mounting base and upper arm are anodized and powder coated for corrosion protection
- Fold-away feature allows the mirror to fold forward and back for easy vehicle storage and protection against impact

# 2020 SS FIELD OF VIEW COMPARISON

FOV Coverage Velvac 2020 Series (blue) versus OE Mirrors (amber)

Information shown above represents a typical vision pattern when using the Velvac 2020 or 2020XG mirrors compared to a typical OE option mirror

33% of  
total transit  
crashes are  
sideswipes<sup>2</sup>

**Did you know that side blind spots cause....**

- ✓ **413,000** accidents annually
- ✓ **160,000** injuries
- ✓ **Litigation Costs** from injury settlements that extend to Several Million Dollars
- ✓ **\$6,000** on average property damage costs<sup>1</sup>
