

# Back Up Camera Systems

- Kits are available with either side/rear view or rear view cameras, 5" or 7" monitor and various cable lengths. Cable lengths available are 15', 25' & 34'.
- Cameras have a sleek design that protects the camera from dirt & precipitation contamination; IR LEDs provide crystal-clear night vision and CMOS technology reduces blooming.
- The 5" monitor has 3 camera inputs with trigger and full camera views only. The 7" monitor is a 4 input monitor with 4 triggers with a view of 1, 2, 3 or 4 cameras at a time and an LCD display with 8 different view modes.

5" Monitor with Rear View Camera and Cable (PN 719598)

5" Monitor with Side & Rear View Camera and Cable (PN 719592)

7" Monitor with Rear View Camera and Cable (PN 719601)

7" Monitor with Side & Rear View Camera and Cable (PN 719595)
